

Activity 2024

This year has been the year of the photograph, but mostly of posts, so we have a record for what changes need to be made to 2-3 sides of each post (in 2025!).

Track maintenance continues and some of that is illustrated below. WTSG must have made a mark after ~30 years, because little signs have appeared in several places along Brachina Gorge and we won a Friends of Parks and Nature award for *interpretation of Parks natural history to promote community engagement and conservation awareness*, AND a Premier's Certificate for *Recognition of Outstanding Volunteer Service*.

But we cannot rest on our laurels. Big brother is obviously watching ...

Just three to move the leaflet box at The Dutchman

Now in a better position

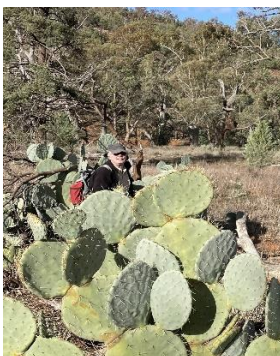

Improving visibility in a remote spot

Wot, no decal?

Rough trail below H1 on Aroona Youngoona before ...

... after some hours work – more needed in 2025

Lost, getting rid of feral cactus prickles

... different for feral horehound

◀ Wounded, but no need for RFDS, just TLC

Safety alerts need serious study ▶

◀ Any lift is better than a 3.7km climb

▶ Time for contemplation of Terrapinna's Tors

◀ Striving for better trails ...

▶ ... aiming for something like this

◀ One in the hand, worth some dollars...

▶ ... three in the bush, no dollars...

◀ none here either

Thank you to all those who took pics shown here -
Danny, Paul M, Paul Y, Marcus, Margy, Neale,
Tim and Sue

❧ Season's Greetings to everyone ❧
