

Activity 2011

This year was different in the Flinders! There was rain and up came all the plants that we had forgotten about particularly in the north. But the tracks had not suffered much – our good maintenance! All went well, as shown below, although vandalism to a pedestrian counter in the Barossa after 5 years, was disappointing. The manufacturer has now made them vandal proof. We met plenty of walkers who expressed thanks for the all the hard physical work we do. Track marking and notes were mentioned appreciatively various times.

The rains came

◀ Green pastures on the McTaggart Track
19 February 2011

The first Rock Sida for 15 years
Mawson-Spriggina
Arkaroola
30 June 2011 ▶

Grants from DENR and Nature Foundation SA

◀ Installing a donation bollard
Mt Brown trailhead
10 February 2011

Leaflet donation bollard
Bunyeroo
13 February 2011 ▶

Southern Flinders

◀ Dutchman Stern track is now more negotiable through flowering
Curry Bush and Sheoaks
5 May 2011

Lower track on Mt Brown overlooking Devils Peak, wears well;
much work needed at top!
6 May 2011 ▶

Mound Springs

◀ WTSG cooperated with Friends of Mound Springs; installing trailhead at Strangways Springs
18 May 2011

New sort of waymarker cairn!
Springs limestone totally impenetrable for posts
19 May 2011 ▶

Arkaroola Wilderness Sanctuary

Over the years much effort has gone into realigning walking tracks off road – here at Bararranna the team forms track and digs out boulder obstacles
 ◀ 25 & 28 June 2011 ▶

Flinders Ranges National Park

◀ 21 new maps for FRNP provided by Nature FoundationSA
 30 July 2011

New walker symbol for Youngoona trailhead
 ▶ 27 July 2011

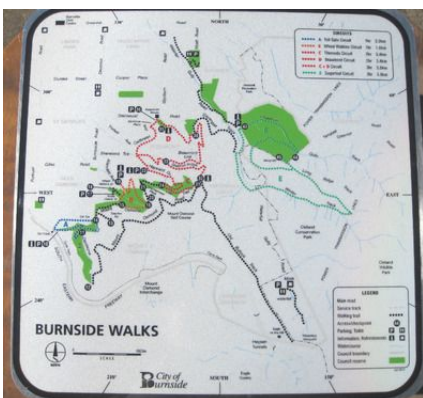

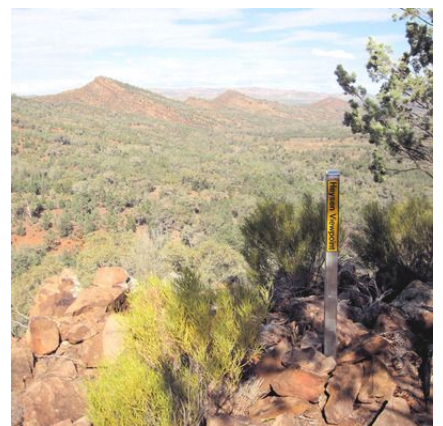

◀ One man went to mow... went to mow a meadow... Trezona flat (no dog!)
 30 May 2011

Golden Spike – we've fixed the official sign before – third time lucky? to withstand Enorama floods
 ▶ 2 August 2011

◀ Another long standing off road access finalised – Yuluna Circuit
 28 July 2011

Heysen's view of the Three Sisters; spur track identified in 1974, now on the ground
 ▶ 2 August 2011

More new maps

◀ Funded by Burnside – up-to-date information on hills face circuits; in a new style ▶

Funded by DENR for Barossa – severely weathered and scorched maps replaced in new style ▶
